Co-creation to Keep Moreno's Spirit Alive!*

## ***Souldrama® in Austria!***

***Sept 26-29, 2013***

Jacob Moreno is the father of psychodrama. We would like to honor him by maintaining the Moreno House in Bad Voeslau, Austria where he lived and worked. Keeping the spirit of his work alive, we are presenting Souldrama® as a 24 Hour Workshop. Souldrama is an outgrowth of psychodrama that integrates all his tools in order to align the ego and soul to act as co creators with the divine. Integrating all three of our intelligences, it removes the blocks in our life and helps us to access our spiritual intelligence. Profits will be shared to support the museum and the life and work of Moreno as well as to share his work in Indonesia and with all of mankind.

Learn this new transpersonal seven stage model, Souldrama a new model for addiction recovery and spiritual growth.

*"When we access our spiritual intelligence we move from competition to co-creation and we no longer ask ourselves, "What can I get, but how can I serve?"*
